REACT DEVELOPER

---

## SUMMARY

Experienced Web Developer with 1+ year of expertise in crafting responsive and user-friendly applications. Proficient in React.js, JavaScript, Redux, Bootstrap, Material-UI, and Node.js. A collaborative team player with a passion for creating impactful and visually appealing web solutions. Ready to contribute skills in both front-end and back-end development to drive success in future projects

---

## PROJECTS

### PASSWORD GENERATOR APP USING REACT

July-2024

- The password will be displayed in a read-only input field.
- Users can easily copy the password to their clipboard with a simple button click
- Users can specify the desired length of the password through an input slider or a numerical input field.
- Users can choose to include numbers in the generated password. If selected, the application will incorporate numbers into the password generation logic.

### FOOD ORDERING APP USING REACT

Aug-2024

Create a food ordering app inspired by Zomato but with a unique UI design, incorporating React with hooks, a context API, and other features.

#### 1. Home Page:

Design a landing page with a unique layout showcasing different food categories.

#### 2. Menu Page:

Implement category-wise food items with clickable functionality using React hooks to manage state.

#### 3. Add-to-Cart Functionality:

Allow users to add products to the cart with quantity selection. Use the Context API to manage the cart state globally.
